8am – 2pm daily

Charles Darwin University, Casuarina Campus

Student Cost: Nil - morning tea, lunch and refreshments provided

Students will also receive a T-Shirt to wear for the duration of the event and a bag

The ConocoPhillips Science Experience NT is proudly hosted by CDU Faculty of Engineering, Health, Science & the Environment and is a highly valued 3 day program designed to inspire and inform year 9 students. The program is known for its exceptional interactive learning experiences and the showcasing of the unique range of educational learning areas such as; IT, Flinders NT Medical Program, Exercise Sports Science, Pharmacy, Environmental Science, Engineering, Horticulture/Aquaculture and an exclusive seminar and tour of the ConocoPhillips Australia Darwin LNG Plant.

This event promises to open students' eyes to the world of possibilities, explore the many career, study and employment opportunities available to them in the NT. Participating students gain a much needed awareness of what they need to do now, whilst at school, empowering them to want to become a high achiever to ensure they do have choices after completing year 12. Charles Darwin University is a dual sector university providing both Vocational Education & Training (VET) and Higher Education.

Our NT program is open to any interest student, regardless of their academia. With the support of ConocoPhillips Australia, local Government, Industry, Business, Institutes and Rotary Clubs we raise the much needed funds to pay for NT students.

Registrations open Monday 24th July, please see your Year 9 Science Coordinator at School

***Please note:** The NT program limited to 100 students
